MASSIVE VIOLATIONS RENDER FARWANIYA LOCKDOWN COUNTER-PRODUCTIVE

20 hours ago

KUWAIT CITY, July 15: Traffic congestion, random markets, wholesale violations and non-compliance with the requirements of protection are among the few things prominently observed in Farwaniya region where the isolation measures seem to have yielded counter-productive results.

At the other side of the market were thousands of affected workers and families who were expecting the distribution of food aid pending the arrival of trucks.

Although the usual time to assemble is between 5 and 6 pm, the beneficiaries arrive at the location from 3 pm to wait for their philanthropists. At 5 pm, charity trucks loaded with baskets containing 11,000 food packs, of which 4,000 are from Al-Najat Charity Society, and 7,000 are from Al-Salaam Charity Society arrive.

In the vicinity of the Gold Market and the streets behind Al-Farwaniya Cooperative Society are random markets for selling vegetables and fruits, in addition to other consumable items.
